President Calls Meeting to Order 6:10

Approval of Last Week's Meeting Minutes

Cooper, Justin

Officer Reports

President

The Wednesday showing of Daughter of the Lake went well. Our collaboration with Innovation week is also going well. D80 conference is getting our 5:30 show for Friday, October 13th. 41North changed the movie they wish to show from Blade Runner to a low budget scifi film for Thursday. Friday at 11 we show a Documentary about Russian car cams. Nanocon has not figured out the date for their event. We have an Advanced Screening of Happy Death day next Wednesday.

Equipment Supervisor

New Bulb. Not installed yet. Have to call Dolby on the show player

Advertising

OAP slide is up, and Matt is actively working with Ford to finalize their slide.

Community Chair

A dozen people came to the event last Saturday. Alyssa and Cooper are planning another social event. One possibility is a volunteer event with the Humane Shelter which would include walking dogs. Another option is showing spooky movies or the Star Wars holiday special, as requested as Dan Tall.

Committee Reports

Movie committee meet and got a list of movies together for the board to vote on.

New Business

The LCD screens in Fisher have continued to be a problem. We believe that a potential source of the problem is people inside the theater turning them on with the IR sender on their phone. A solution found was to simply unplug the screens. The Movie schedule up to the Weekend of November 4th is as follows. Hitman's bodyguard 10/14, Atomic Blonde 10/21, Dark Tower 10/28, and Dunkirk 11/4. A motion was made by Ian and seconded by Maggie to allocate \$200 for the purchase of a new phone which utilizes cat5, a usb switcher for the keyboard and mouse in the booth, and a new case for the computer in the office. The motion was passed.
